

The PaTTAN Literacy for Low Incidence work group is asking for YOUR support in understanding literacy instruction for students with complex learning needs.

The survey (link and QR code below) will ask you questions about the current status of reading and writing instruction for your students.

The survey information will be used to help PaTTAN develop and provide continued and targeted literacy support for educators and care givers.

Thank you in advance for all your hard work and providing us with information that can support students, educators, and families.

YOU are making a DIFFERENCE!
