

Website Scavenger Hunt

Your website should be family/community friendly and easy to navigate. Ideally, two clicks to access a topic or resource should be the goal. This activity is designed to guide you through a review of your LEA's site and determine how user friendly it is.

Instructions: Go to your LEA's website and find each item. Record how many clicks it takes from the website's home page. After each item, return to the home page and move to the next item. Based on your data, ponder or discuss with a group: *How user friendly is this site?*

ITEM	# CLICKS FROM HOME PAGE	DOESN'T EXIST
Dates school is closed for winter break		
Answer to 'Do I need to complete annual forms for a returning student if nothing has changed?'		
Community event calendar		
Create an account to enroll a new student
