ASHA Disclaimer:
Caroline Ramsey Musselwhite

- **Relevant Financial Relationships**: Caroline Musselwhite is the owner of AAC Intervention and receives compensation as such. During her presentation she will be referencing her company and actual case studies. She has authored many books and software items and receives royalties and or consulting fees for these publications through her company, Don Johnston Inc. and the Attainment Company. She has consulted with other companies including AbleNet, Assistiveware, and Panther Technologies. She has consulted with nonprofit groups such as FAST and Angelman Syndrome Association.

- **Relevant Nonfinancial Relationships**: Caroline Musselwhite is a founding member, Executive Board Member, and Board of Directors Member of the International Society for Augmentative and Alternative Communication (ISAAC).
SWITCH: Key Concepts

• Tired, confused brains!!

• Rider = rational side
  – Has the reins
  – Tends to analyze (or over-analyze)

• Elephant = emotional side
  – Really big! Goes where it wants
  – Has the passion (but is into instant gratification!)

• Smoothing the Path = make it EASY!

By Chip & Dan Heath
AAC in the Classroom: What Do We Need?

• **AAC System Always Available:** Yes, ALL day!!

• **Smart Partners** – people who know the language on the system

• **Peer Supports** – peers are great modelers . . . And great problem-solvers!

• **Creativity** – Need to find ways to encourage use of AAC across all activities
A Framework for Thinking about Vocabulary from the Literacy World

TIERS OF VOCABULARY
Beck, McKeown, and Kucan

TIER 3
Low-frequency words, domain-specific

TIER 2
High-frequency words, found in many content areas

TIER 1
Words of everyday speech, familiar to most students

www.communicationwindow.wordpress.com
Tier 1 Words

• Basic Words

• Students need to know them

• Sight words

• Don’t require instruction

• AAC terms: core vocabulary +

• Examples: I, it, want, will, have, happy, clock, baby, movies
Tier 2 Words

• Somewhat high frequency in academics
• Are cross curricular
• Important for understanding texts
• May have multiple meanings
• Allows student to give rich descriptions about concepts
• Allows student to be specific
• These words increase their level of communication

• AAC terms: general academic core/content

• Examples: merchant, tend, fortunate, maintain, hasty, absurd, required, performed
Tier 3 Words

- Very low frequency of use
- Specific to a domain/field of study
- Found far more often in informational texts
- AAC terms: fringe vocabulary
- Examples: igneous, metamorphic, osmosis, Boer War, mitochondrion, sine
Descriptive Teaching Method
Gail Van Tatenhove

A process for teaching and reinforcing the use of core language - high frequency words - in the classroom throughout the entire school day

www.gailvantatenhove.com
Instead of programming more and more words into the AAC device for vocabulary for each new area of the curriculum, the student communicates those new ideas with high frequency, re-usable words already in his/her vocabulary system.
### Shift Instructional Language From Referential to Descriptive

<table>
<thead>
<tr>
<th>Referential Language</th>
<th>Descriptive Language</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Unit-specific vocabulary</strong></td>
<td><strong>Plain language</strong></td>
</tr>
<tr>
<td><strong>Many new words</strong></td>
<td><strong>Use familiar words to describe new concepts</strong></td>
</tr>
<tr>
<td><strong>Elicit quick single word responses</strong></td>
<td><strong>Elicit multi-word responses</strong></td>
</tr>
<tr>
<td><strong>Expect correct/incorrect responses</strong></td>
<td><strong>More than one correct response</strong></td>
</tr>
</tbody>
</table>

[www.gailvantatenhove.com](http://www.gailvantatenhove.com)
Key Strategies

• **Plan A:** This is *interactive*; Expect a response that is:
  — Active
  — Generative
  — Using speech and AAC device

• **Plan B:** Model, model, model
  — Using student’s AAC system!
  — Talk Aloud to show where you find the words
  • Okay . . . Describing words . . . More . . .
Ancient Egypt

- Desert
- Pyramids
- Mummies
- Tombs
- Slaves
- Temple
- Canopic Jar
- Pharaoh

- Very hot, very dry place
- People build very big, shape triangle
- Old dry dead people
- Most high up person, most important
- Dead people go in
- Not free, low, had to work hard
- Go to show respect to most important
- Most important body parts go in
Vocabulary Considerations for AAC Devices

• **Problem with academic vocabulary on AAC device**: Here today—gone tomorrow!!!
  – Vocabulary may not be used after the unit is over
  – Amount of space taken up on device with academic vocabulary
  – Motor demands
  – Simply saying the vocabulary word on the AAC device doesn’t ensure a deep understanding

• **Solution**: Consider having AAC words that students can say ALL of the time to TALK about the target vocabulary word
Ask These Questions:

• **1)** Is this word only for a single unit of study, or will it be used across many units?

• **2)** Will this word be used AFTER the unit is over??

• If the answer to either question is NO, consider using light tech supports, such as lists.
Instead of Always Pre-Teaching . . . Teach During Shared Reading!

Mr. K: “’There is hot lava everywhere.’ Wow! LOOK OUT!” (pauses)

Jake: “What?”

Mr. K: “Hot lava!’ DO NOT touch! (points)

Mr. K: “So hot! Red hot!” (pauses)

Ellie: “Hot.”

Mr. K: “Right Ellie. Hot red lava! It Goes DOWN. It’s IN the volcano.”

Readtopia: Journey

www.donjohnstoninc.com
Vocabulary Mining – Tier 2 Words!

Words Words Words!!

WHAT AND WHY: I often caution against adding content words to AAC devices, instead suggesting using Gail van Tatenhove’s strategy of Descriptive Language Teaching. This strategy uses ‘Tier 1 Words’ (basic or core words) to describe less frequent words such as ‘igneous’ or ‘mummy.’ However, it may be very helpful to teach and/or add rich Tier 2 words (general academic vocabulary: words that are high frequency but may have multiple meanings, such as ‘cluster,’ ‘sympathy,’ ‘absurd,’ and ‘judge.’) For students engaged in academics, these Tier 2 words may help them define less frequent words and write more successfully.

HOW TO ‘MINE’ FOR TIER 2 WORDS:
• Select words from books that students are reading. For example, we were reading a story from 20,000 Leagues Under the Sea/Readtopia. Two words that some students didn’t know were ‘harpoon’ and ‘famous.’ We used core words to describe ‘harpoon’ but added ‘famous’ to devices for two students. The rationale was:
  - ‘Famous’ can be used across many subjects (history, science, ELA)
  - ‘Famous’ can be used to describe many words and people

• As we read a book from Prehistoric Pals (Oceanhouse Media), I noted some Tier 2 words. We played Vocabulary Password (Tip #3, 2017), then asked the student if she wanted us to add any of these words. You can see the words she selected in the chart to the right. All of these words have been used repeatedly when describing characters and animals.

DOES IT WORK?
Yes, but only if partners MODEL the new words. Multiple people must model the words in context so that students will use them. Below is an example of how a student used the word ‘creature’ that had been mined from previous reading.

| 2-17-18 | Lit Group – scavenger hunt for Mom going to Nepal | ANIMAL; FAVORITE; CHILDREN; YUCK; GROSS; CREATURE | We had talked about Yeti last week in therapy |

Dr. Caroline Ramsey Musselwhite Tip # 4, 2018 www.aacintervention.com

<td>Story Retelling</td>
<td>Ev found L for lion</td>
</tr>
</tbody>
</table>
General Rules

• A concept can’t be pointed at: go slowly

• Ask open-ended questions: concepts have many right answers

• Ask peers to help: peers benefit from generating the language
1-Minute Word Web

boom
blow up = erupt
mountain
orange red
volcano
rain rocks & ashes
lava - hot go down

What are features that would help LG?

How would you tweak this? Ancient / Modern
Frayer Model

- Give kid friendly definition
- Describe its essential characteristics
- Give examples of the vocabulary word
- Give non-examples of the vocabulary word
Dictator

Examples:

Non-examples:

Short article: http://www.ducksters.com/biography/adolf_hitler.php
Definition - not okay; bad for some people

Examples - Jim Crow Laws
sister gets to do something jobs - some people get more money politics sickness

Characteristics - laws; rights;

Non-Examples -
good rules
my parents
good teachers
good friends
Vocabulary Exploration – Frayer Model

4-Part Analysis

WHAT: The Frayer Model was developed by Dorothy Meyer and colleagues at the University of Wisconsin. It is designed to support students in gaining a deep understanding of new vocabulary words.

WHY USE THE FRAYER MODEL: This model, in use for many decades, supports students by helping them:
• Define the word using kid friendly words
• Describe characteristics of the word
• Provide examples of the word, and
• Offer non-examples
Each of these components is powerful in creating a deep understanding. For example, knowing what a thing is NOT can help us understand what it IS

MATERIALS FOR THE FRAYER MODEL:
A quick internet search will find templates for using the Frayer Model in various formats, including Word, PDF, and Inspiration, such as the images shown below.

Frayer Model Pdf - Image Results

SAMPLE FRAYER MODELS:
The sample to the right shows use of the Frayer Model with Inspiration software for the word ‘trust’ as used in The Diary of Anne Frank. Items shown in red were contributed by Marcus, using his AAC device.

Dr. Gretchen Hanser & Dr. Caroline Ramsey Musselwhite
Tip # 4, 2017 www.aacintervention.com
How Can We Support MEMORY?

Make a book, of course!!

Egypt
by Maggie

P is for pyramid.

P is for pyramid.
People made the pyramids.
Pyramids are big.

Maggie’s Books
• Clean background
• Simple text
• Attention to color

Egypt
by Maggie

• Concept + image

Pyramid.
Connection to alphabet

P is for pyramid.

• Words to describe.
• Predictable text.
• Could use the word IT to support modeling on device
• Students should help pick these words!

A pyramid is old. A pyramid is dry. A pyramid is hard.
A pyramid is an ancient structure built as tombs for the Pharoahs.

- Deeper connection to word.
- Simplified dictionary definition
Books As Reports

• Accessible to student

• Provide visual supports

• Use a talking software / app

• Read it again and again – memory support
Make A Book

Book Creator

Mission San Juan Bautista was founded on June 24, 1797.

Pictello

- Photos
- Text
- Speech (great voices)
- Humor
Brainstorm First, then pick letters

Great Review! OK to leave out letters
Photo Response Using AAC: Make It Into A Book

PicCollage

• Each picture could be copied and used as a book page to review

• Narrate each page, adding information (e.g., The Yellow River looks funny. It really does look yellow. It is sad because many people got diseases and died.)

• What tools would you use?
Can We Chat Book

www.teacherspayteachers.com

OR, e-mail Caroline & Ask for it (for free)!!

carolinemusselwhite1@me.com
What Are Social Scripts?

- **Interactions** (joke-telling, life stories, chit chat)
- **Beyond Wants and Needs** ('real conversations)
- **Support AAC users**
  - claim a turn
  - start & maintain a conversation
Sequenced Scripts

• Pre-planned steps
• Co-constructed by user and partner
• Goal of social interaction
Step-Listing Devices & Apps

Step by Step

TapSpeak Sequence app

Total Talk app

Pictello app

• multiple messages  • sequenced messages
• text              • videos
Goal - Make communication:

- Frequent
- Motivating
- Self-initiated
- Varied, to maintain interest
- Ongoing, with multiple turns
- With a range of partners, including peers
- A way to model a range of pragmatics
- Easy (do 'on the fly')
Remember Parallel Teaching!

Any student using sequenced social scripts must also have goals and activities for developing skills that help the individual use language that involves more personal choicemaking, and is more generative.

Especially for students who struggle with ACCESS!

Or students who are learning the ‘rules of engagement’
Types of Scripts

- **Action Scripts:** Tickling; playing trucks and cars; high five; backrub

- **Conversation Scripts:**
  - **Chit Chat:** What did you do last weekend? Who’s cute?
  - **Story Scripts:** Telling about something that happened

- **Participation Scripts:**
  - **Classroom activities:** morning meeting, directions for science experiment
  - **Literacy scripts:** Alphabet activities, phonological awareness, sharing writing
Book Listening

• 1 page per button / switch click
• student or partner turns page
• great for rehearsal
• student develops an ‘ear print’
Reading to Younger Children
Tips & Tricks!

- read to a small group
- make sure it’s loud enough
- include ‘crowd control’ comments!

💡 Book on high tech device
🥚 Crowd control on step-listing

‘Can you hear?’  ‘Look at this!’
‘Who wants to act it out?’
‘Who wants to turn the page?’
Poetry Pal

- help pick a Poem-of-the-Week
- help record poem
- practice it
- perform it
**Issue:** The goal of the group is NOT Using an AAC device . . .

**Remember:** By kindergarten, the students are no longer learning to talk

But talking to learn!! Sooooooo,

Dance with the Girl you brought!
Line Leader

• wait, wait, wait

• using 'sponge time'

• sneaking in literacy!

Line Up Scripts

***

Find the literacy scripts!

Line Up Symbols (Musselwhite, 04)
Interview Script Programmed on Step Listing Device

1. Hi there!
2. Got a minute
3. I am making a letter book and need your help
4. Do you have anything that starts with the letter “c”?
5. Great! Can I take a picture of it?
6. Thanks so much!
7. Gotta go talk to someone else now.
1. It’s time for Alphabet Action Man!
2. The first letter is D.
3. Danielle picked the word DANCE.
4. Okay, everybody, get ready.
5. Let’s dance, dance, dance for D!
6. Say it in your head this time.
7. Let’s dance, dance, dance for . . . . . D!
8. Next letter . . . Gabi picked an M.
9. She picked the word MARCH.
10. Are you ready? (etc)
Alphabet Action Man Game

Alphabet Action Man!

Lose the Drill & Kill - Make it FUN!!

WHAT AND WHY: Too often, students with significant disabilities are taught the alphabet through flip cards and other boring, inauthentic tasks. The Alphabet Action Man Game is a quick activity for making alphabet instruction fun and meaningful.

WHO IS THIS FOR: This game is great for students who are learning the alphabet, but needing to connect letters to meaning. It’s also great for students who find it difficult to attend to lengthy instruction. The game offers a quick chance to engage with the alphabet while taking a ‘movement break.’

HOW TO PLAY IT:
1) When the students are starting to get antsy, let one student pick a letter. Note – be sure to let students pick from the entire alphabet. Sample ways to pick are:
   a) Alternative pencils (ex: Alphabet Flipboard)
   b) Magnetic ABCs app
   c) Alphabet page on their AAC device / app
   d) Word Wizard app
      Note: Don’t spend long picking a letter – this should be quick!!

2) Have two people call out an action to go with the letter. For example, if the letter is J:
   a) Teacher calls out ‘Jog’
   b) Para calls out ‘Jive’
   c) One student quickly votes for jug
   d) All students ‘jog’ as leader holds up letter J (on popsicle stick) and chants
      “Let’s jog, jog, jog for J”

REMEMBER! This should be quick and fun!
Play this for 2-3 minutes, several times a day

December, 2013 Tip

www.aacintervention.com
Phonological Awareness

- Word level
- Intra-syllabic level (onset-rime)
- Syllable level
- Phoneme level

Slide by Martine Smith
## Name Song

<table>
<thead>
<tr>
<th>clap</th>
<th>tap</th>
<th>stretch</th>
</tr>
</thead>
<tbody>
<tr>
<td>spell</td>
<td>tell</td>
<td>cheer</td>
</tr>
</tbody>
</table>

Jessica
## Name Song Directions

<table>
<thead>
<tr>
<th>Say This</th>
<th>Do This</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clap your name</td>
<td>“Jess – i – ca” (clapping each syllable)</td>
</tr>
<tr>
<td>Tap your name</td>
<td>“Jess – i – ca” (show 3 names and tap target name)</td>
</tr>
<tr>
<td>Stretch it til it’s long</td>
<td>“Jess – I – ca” (move hands apart, showing each syllable)</td>
</tr>
<tr>
<td>Spell your name</td>
<td>“J – E – S – S – I – C – A” (show name, with large print. Point to each letter, but PAUSE before saying it)</td>
</tr>
<tr>
<td>Tell your name</td>
<td>Have student sign, say, or use a device to say their name</td>
</tr>
<tr>
<td>Say it like a cheer</td>
<td>“Jessica, Jessica, Jessica!”</td>
</tr>
</tbody>
</table>
Raps & Chants for Older Students

Name / Word Chant
Supporting Phonological Awareness

WHAT AND WHY: Many older students have not developed phonological awareness skills, and need support. It is very important not to do activities that feel 'babyish.' The use of chants and raps can offer activities that are engaging but age-respectful.

NAME CHANT

This is a fun and easy activity. Use the names of everyone in the class or family... including your pets! It helps to use a simple chart, as shown to the right.

<table>
<thead>
<tr>
<th>Say This</th>
<th>Do This</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clap your word</td>
<td>&quot;be-cause&quot; (clapping each syllable)</td>
</tr>
<tr>
<td>Tap your word</td>
<td>&quot;be-cause&quot; (show 3 - 9 words from word wall; student taps target word)</td>
</tr>
<tr>
<td>Stretch it till it's long</td>
<td>/breeee-ouz/ (move hands apart, showing each syllable)</td>
</tr>
<tr>
<td>Spell the word</td>
<td>&quot;B - E - C - A - U - S - E&quot; (show word, with large print. Point to each letter, but PAUSE before saying it)</td>
</tr>
<tr>
<td>Tell the word</td>
<td>Have student sign, say, or use a device to say the word</td>
</tr>
<tr>
<td>Say it like a cheer</td>
<td>&quot;be-cause, be-cause, be-cause!&quot;</td>
</tr>
</tbody>
</table>

This is the same activity, but students are now chanting about word wall words. Pick 3 or 4 word wall words to clap and chant each day. Tips:

- **Tap your word**: use the 'wipe-off choice board' (see www.aacintervention.com, Tip # 3, 2016,) to display 3, 4, 6, or 9 choices, depending on student needs
- **Stretch the word**: highlight onsets and rimes. For example, the word 'not' would be stretched as: /N - OT/ rather than /N - O - T/. This will help students hear and identify the 'chunks' or rimes in words
- **Tell the word**: All students can call out word, or give each student a word in advance to call out
- **Inner voice**: Remind all students (not just those who are non-speaking) to 'say it in your head.'
Name Chant Script

Student: Alexis is struggling with access. She's working with the OT & SLP to improve access

She's leading name chants for morning meeting:

• The next name starts with 'D'
• So, who is it? Natasha? Derek? Jesus?
• It's Derek!!! Let's chant for Derek!
• The next name has 3 beats . . .
• Is it Ann? Marcus? Natasha?
• It's Natasha!
• Let's chant for Natasha!
Tongue Twisters

• Start with 2 or 3 sounds that are important
  – D for Dad & Daniela (sister)
  – M for Maggie and Mom

• Make up twisters with 1 word missing
  – Students can pick the word to finish it

Mom  makes / milks / meets   messy mud.
Mom makes a messy / marvelous / mean mud.
Matt / Mom / Mick makes a messy mud.
Students Use AAC System to Choose Words to Add

- Help students pick action words and describing words
- Partners should model where words are found

Use ‘Talk-Alouds’: ‘I’m looking for mad. Let’s see: FEELINGS . . . Let’s find the one with the mad face . . .’
Students Use AAC System to Choose Words to Add

• Then put choices on a wipe-off board
• Include ‘something else’

mad  mean  messy  Something else

Wipe Off PostIt Choice Page 2016, Tip # 3
www.aacintervention.com
Sound Substitution Script

The class has been reading *Pizza Today* from the Raps set.

Ava is leading rhyming chants for morning meeting:

• Pizza patza peric, pizza fell on ________
• Is it Eric? Manuel? Dorcas?
• Pizza patza peric, pizza fell on Eric!
• peric / Eric - Eric / peric - It rhymes!
• Here’s another: Pizza patza Porcas, pizza fell on ________
