Resource Mapping Defined

A system-building method that links community resources with an agreed-upon vision, organizational goals, strategies, and/or expected outcomes.

- Builds relationships & Works across boundaries
- Aligns systems and services
- Long-term; not a quick fix
Why Map?

→ To accomplish a specific task or goal – employment
→ To develop a systemic and coordinated approach to facilitating work experiences and employment
→ To identify new resources /employers
→ To determine whether existing resources/employers are used effectively

→ TO WORK SMARTER!
  • It gets information out of people’s heads and shared so it can be accessed by all partners
Value of Mapping Resources

- Identifies gaps, overlaps and duplication of services, program and resources
- Enables a community to reallocate resources where there is the greatest need
- Cultivates new partnerships and relationships
- Complements other employment data to provide a comprehensive picture of resources/opportunities
Steps to Mapping Resources

#1 Define Mapping Taskforce & Vision/Goal(s)

#2 Map Resources

#3 Determine Overlaps/Gaps

#4 Implementing the Map
Step #1: Mapping Organizational Team

- Establish a central organizing body made up of diverse cross-agency stakeholder groups
- Invite people & organizations with significant ties to the community
- Select core membership that creates links between parts of the system (e.g., schools, VR, workforce…& families)
- Consider what will bring people to the table, & what will keep them there
## Mapping Partners

<table>
<thead>
<tr>
<th>Potential Partner</th>
<th>What’s their self-interest?</th>
<th>What do they bring?</th>
<th>Steps to solicit involvement</th>
</tr>
</thead>
</table>
| LEA (general and special education, CTE) | - Receive assistance from other partners  
- Improve their Indicator 13 & 14 post-school outcomes. | | |
| Vocational Rehabilitation | - Expand outreach to schools and families and facilitate the provision of Pre-ETS, and other services to improve outcomes for students and youth with disabilities  
- Improved performance measures | | |
| Community Rehabilitation Providers (CRP) | - Expand their services to transitioning youth and receive fee for service payments from VR. | | |
| Postsecondary education and training | - Increase rate of enrollment/students are more aware of career area | | |
| Businesses | - Preview potential workers  
- Build their workforce | | |
| Families | - Student leave high school college or career ready | | |
Step #2: Mapping Employment Resources

→ Consider the work experience continuum
  • What does it look like in your community?

→ Determine how you will collect data/employment resources
  • E.g., meeting; survey; interviews

→ Collect data/employment resources
  • On-going process
## Example Work Experience Continuum

### Awareness

- Self-exploration
- Career exploration
- Field trips
- Job shadowing
- Volunteering

### Exploration

- Career exploration
- Job shadowing
- Career planning
- Workplace Tours
- Informational Interview
- Job shadowing
- Service learning
- Paid employment
- Job Clubs

### Preparation

- Job shadowing
- Service learning
- Paid employment
- Job Clubs
- School Based Enterprise
- Service learning
- Internships
- Apprenticeships
- Paid Employment
- Mentoring
- Internships

### Employment

- Job sampling
- Paid employment
- Mentoring
- Internships
- Apprenticeships
- Paid Employment
- On-the-job training

Step #3: Identify Overlaps and Gaps

→ What gaps in employment services/resources exist in your community?

→ Which employment services/resources are duplicated or overlap?

→ What major gaps exist in your employment service delivery system(s)? [For example, are youth with disabilities being served? Are employers engaged?]

→ What target populations are in need of improved access to employment services? [For example, youth with significant disabilities, incarcerated youth, out-of-school youth.]
Step #4: Implement the Map

→ Develop an action plan
  • How will you address gaps?

→ Define organizational structure
  • Who does what

→ Communicate & disseminate information

### Services Provided by the LEA

**Services “In-House” with Vocational Rehabilitation and Contracted Services**

- Assist students to explore O*NET — including use of “My Next Move”
- Engage students in career tours and online career exploration
- Support students in understanding the training/education options available based upon their career interests
- Teach workplace expectations such as work hours and breaks, personal hygiene, health and safety requirements, etc.
- Utilize the Youth in Action! Becoming a Stronger Self-Advocate tip sheet with students

### Services Provided by the LEA

**Services “In-House” with Vocational Rehabilitation and Contracted Services**

- Arrange for a group of students or an individual student to visit various community businesses to learn about different jobs in their community
- Instruct students in how to self-assess their own skills, support needs, strengths and experiences from each work experience
- Collaborate with the school counselors to provide opportunities to discuss post-secondary education options and explore local post-secondary education campuses
- Teach students to request and use assistive technology
- Support students in setting one or two relevant personal self-advocacy goals for the school year

### Services “In-House” with Vocational Rehabilitation and Contracted Services

- Provide opportunities to explore Transition-to-Work inventories and facilitate follow-up discussions afterward
- Support students in job shadowing, or mentoring opportunities in the community
- Engage students in electronic mentoring with college students with disabilities
- Soft skills training to facilitate awareness of social skills and personal strengths and challenges in the workplace.
- Teach students to create and use visual resumes to share their “best self”, disclose disability, explain needs, etc.
Using Flow of Services

→ Engages a local collaborative team of agencies and advocates
→ Creates a local system level continuum of student outcomes and services across Transition
→ Identify roles and responsibilities of local service providers and families in the achievement of student outcomes and making connections across the continuum
→ Provides a cross agency planning and communication tool that helps to identify opportunities, gaps and duplication

Flow of Services: Individual Student

→ Reference the Local Flow of Services to create Individual Student Flow of Services
→ Provides a ‘road map’ for IEP and IPE development
→ Increases families understanding of the supports and services available across the years
→ Assists students in sharing information during planning meetings

Implementation of Career Education and Work Standards

• Pa Chapter 339 – Comprehensive School Counseling Program
• Integration within a variety of k-12 courses
• Every Student Succeeds Act – Career Readiness Indicator
ESSA - Student Portfolio

Required benchmarks at Grades 5, 8, and 11 → Cumulative Evidence → Individualized according to a student’s needs/interests
ESSA - Portfolio Benchmark Requirements

Grade 5
- 6 pieces of evidence
- Collected across K-5

Grade 8
- 6 artifacts from K-5
- Additional 6 items collected 6-8
- Creation of *Individual Career Plan*

Grade 11
- K-8 Evidence (12 pieces)
- Additional 8 items collected 9-11
- IMPLEMENT *Individual Career Plan*
ESSA - Individual Career Plan Requirement

• **GOAL** – help students identify pathways and opportunities for post school success
  • Required for every student
  • Must be aligned to the Career Education and Work Standards
  • Should include information on the “what, where, when, who, how, and why” of vocational learning for that student
What does this mean for students with disabilities?

• Data is being collected before 14 (Chapter 14 transition age)
• IEP does not replace portfolio/plan requirements
Pre-Employment Transition Services (Pre-ETS) help students with disabilities learn about themselves, understand work requirements, practice work skills, choose a career, and explore training options.

These services provide a generalized early start to job exploration.
Pre-ETS Criteria

Pre-Employment Transition Services are for students:

Between the ages of 14-21
Enrolled in secondary or post-secondary education
Have an IEP, 504 Plan, or identify themselves as a student with a disability
Students may or may not have an open case with OVR
Pre-ETS Categories

• **Required** – five (5) required services to be provided directly to students

• **Authorized** - activities include outreach or training on Pre-ETS topics for parents, staff, or other professionals

• **Coordination** - additional student services that support the provision of Required Pre-ETS (i.e., IEP meetings)
What are the five (5) Required Pre-ETS?

1. Self-Advocacy Instruction
2. Counseling On Postsecondary Options
3. Job Exploration Counseling
4. Work Based Learning
5. Workplace Readiness Training
**Self-Advocacy Instruction** helps students with disabilities build skills to solve problems and communicate their own needs and interests.

**Counseling on Postsecondary Options** helps students with disabilities decide if college or training after high school is right for them.

**Job Exploration Counseling** helps students with disabilities learn about jobs and pick a career.

**Work Based Learning Experiences** use community workplaces to provide students with disabilities the knowledge and skills that will help them connect school experiences to real-life work activities and future career opportunities.

**Workplace Readiness Training** teaches students with disabilities how to get and keep a job.

Document Review and Discussion
Youth & Family Discussion Questions (1)

As a young person in school and a family member when your son/daughter was in school, were you aware that there was a direct connection between general education – special education and OVR – Pre-ETS?
Youth & Family Discussion Questions (2)

Why is it important to understand the career ed and work standards, measurable annual goals, postschool goals and the 5 require Pre-ETS, beginning in elementary school and continuing through high school graduation?
In addition to achieving a high-quality academic education and obtaining a diploma, why is it important for a student with a disability to participate in Pre-ETS and engage in IDEA transition activities and services?
Youth & Family Discussion Questions (4)

What tips would you offer to youth and family members to understand the information talked about during today’s webinar?
How does the information discussed during today’s webinar impact my day-to-day work?
How can we partner to be aware and use this information to supplement and not supplant services and activities and to keep students at the center of the transition process?
OVR and Education Discussion Questions (3)

Is it ok that the flow of services and resource mapping doesn’t look the same everywhere in Pennsylvania?
You may have heard about Transition Discoveries; how could this be used as a strategy to prioritize and improve services and outcomes for students with disabilities?
Poll Question

How optimistic are you that the MOU and supporting resources presented in this webinar series will have a positive impact on your day to day work and will improve successful outcomes for students with disabilities?
