

***Credential of Competency for Special Education Paraprofessionals
Documentation of Special Education Paraprofessionals' Competence in
Entry Level Standards-Based Knowledge and Skills***

As practicing members of the educational team, special education paraprofessionals should be able to document their competence and mastery of required skills and knowledge. The *Credential of Competency for Special Education Paraprofessionals in Pennsylvania* is recommended by the Pennsylvania Department of Education, Bureau of Special Education for paraprofessionals to obtain "qualified" status, per 22 PA Code Chapter 14.105(a)(1)(iii).

This requirement states that by July 1, 2010, all instructional paraprofessionals shall meet one of the following qualifications:

- (i) Have completed at least 2 years of postsecondary study.
- (ii) Possess an associate degree or higher.
- (iii) Meet a rigorous standard of quality as demonstrated through a State or local assessment.

The *Special Education Paraprofessional Competencies for Practice: Competency Assessment Checklist* may be used by instructional paraprofessionals in school entities, charter schools or cyber charter schools and their supervisors to document the achievement of skills and knowledge necessary to work with students with disabilities.

Within the Competency Checklist, administrators and supervisors of paraprofessionals will find various methods, (i.e., Interview, Demonstration, or Professional Development) to document a paraprofessional's attainment of the competencies. These can be recorded on the checklist (checklist format adapted from Twin Falls School District #411, Idaho, Paraprofessional Portfolio Plan & Competency Checklist, 2002).

When a special education paraprofessional has completed the *Special Education Paraprofessional Standards for Practice: Competency Assessment Checklist*, and a school entity, charter school or cyber charter school administrator has attested, on the assurance page, to the demonstration of the paraprofessional's competence in each of the seven competency areas, the paraprofessional may electronically submit the document and any questions to the Pennsylvania Department of Education, Bureau of Special Education to RA-EDPARAPROFESSIONAL@pa.gov . Upon review and approval of the submitted documents, the paraprofessional will be issued a *Credential of Competency for Special Education Paraprofessionals in Pennsylvania*. Please note that it takes about 6-8 weeks for the approval process to be completed.

Paraprofessional Standards for Practice: Competency Assessment Checklist for Entry Level Standards Based Knowledge and Skills

Performance–Based Competencies for Special Education Paraprofessionals

Performance-based competencies include statements of the knowledge and skills needed by paraprofessionals to work successfully in educational environments. Competencies for knowledge and skill are the foundation for pre-service preparation, ongoing professional development, and performance assessment of paraprofessionals. *Knowledge and Skills for Beginning Special Educators* were identified by the Council for Exceptional Children (CEC) in *What Every Special Educator Must Know*, 4th ed, 2000. These knowledge and skill competencies correspond with the performance-based competencies for special education paraprofessionals promulgated by the CEC.

The Bureau of Special Education, Pennsylvania Department of Education endorses the use of these seven CEC performance-based competencies and their corresponding required knowledge and skills, as they define the basic content for the initial preparation and practice of special education paraprofessionals.

Core Competency Area 1: Professional Learning and Ethical Practices

Core Competency Area 2: Learner Development and Individual Learning Differences

Core Competency Area 3: Special Education Services and Supports in the Learning
Environments

Core Competency Area 4: Assessment

Core Competency Area 5: Instructional Supports and Strategies

Core Competency Area 6: Social, Emotional, and Behavioral Supports

Core Competency Area 7: Collaboration with Team Members

Paraprofessional Standards for Practice: Competency Assessment Checklist for Entry Level Standards Based Knowledge and Skills

Directions for the Special Education Paraprofessional Competency Assessment Checklist

The Competency Assessment Checklist is a vehicle through which a paraprofessional can document achievement of the entry level knowledge and skill competencies required to receive the Paraprofessional Credential of Competency for Special Education Paraprofessionals from the Pennsylvania Department of Education, Bureau of Special Education. The paraprofessional's supervisor or designee must verify achievement of all items on the checklist, as evidenced by an electronic signature on the assurance page before application for the credential may be submitted to the Bureau of Special Education.

The Competency Assessment Checklist contains seven competencies. Included for each competency is a list of essential knowledge and/or skills that are required to meet the competencies. Paraprofessionals can achieve these competencies by one of three methods: Interview, Demonstration, or Professional Development. In addition, each knowledge and/or skill competency can be achieved at the entry level. Supervisors must verify paraprofessionals have the entry level knowledge and/or skills for each competency to qualify for the Paraprofessional Credential. Methods are described below:

Interview

When interviewed by the supervisor, paraprofessional provides responses to questions relating to knowledge and skill competencies.

Demonstration

When observed by the supervisor in the classroom or a simulated situation, paraprofessional employs knowledge and skills competencies.

Professional Development

Paraprofessional has documented attendance and met syllabus requirements of professional development/in-service training approved by a school entity.

*Please note, not all knowledge and skill items can be achieved by attending a professional development or in-service training. Some items require demonstration under actual work conditions.

**Paraprofessional Standards for Practice: Competency Assessment
Checklist for Entry Level Standards Based Knowledge and Skills**

Completing the Paraprofessional Competency Assessment Checklist

Please complete all demographic information on the cover page. Each of the seven Paraprofessional Competencies has a separate row that includes: the checklist of essential knowledge and skills that apply to that competency; the date achieved; and the method used to achieve each competency.

Directions:

1. Complete employee information on cover page and identifying information on each page.
2. Indicate the date each competency was documented by supervisor or designee.
3. Indicate method used to achieve each competency in the *I-D-PD* column.
4. Paraprofessionals may provide evidence to document the completion of each core competency in the evidence and resource boxes.
5. When all knowledge and skills in a competency have been completed, the supervisor or designee assures and electronically signs on the last page to document that the requirements have been met.
6. Retain a copy of the completed application for your records.
