RENEW TOT Training

May 1 & 2, 2019 PaTTAN Harrisburg 9:00 am – 3:30 pm

RENEW (Rehabilitation for Empowerment, Natural Supports, Education and Work) is a secondary transition intervention developed by the University of New Hampshire Institute on Disability. RENEW supports adolescents with emotional and behavioral challenges. Schools in PA have begun to implement RENEW as a tertiary level intervention to promote high school completion and preparedness for life events after high school. Participants invited to attend this training will be trained as RENEW Trainers of Training and will be approved to offer the RENEW training to their local educational agencies. Participants will learn a person-centered planning process that is an integral component to support the academic and behavioral progress of students. Additionally, participants will discuss facilitation and training protocols to support teams' action plan development and implementation as well as individualized student team development.

Objectives:

- Identify the major features of the RENEW implementation process and delivery system
- Discuss the difference between RENEW TOTs and RENEW Facilitators
- Discuss the difference between the school's tertiary team and the student's individual team
- Practice RENEW facilitation and mapping
- Discuss the implementation science with the RENEW fidelity tools

May 1, 2019

9:00 am -10:30 am	Description of RENEW principles, outcomes, implementation process, and delivery system; Orientation to the RENEW TOT Checklist
10:30 am -10:45 am	Break
