

Introduction to Universal Design for Learning: The Why, the What, and the How

September 16, 2025 – December 13, 2025
January 27, 2026 – April 26, 2026

Online Course

This self-paced, online course provides participants with an introduction to Universal Design for Learning (UDL) by exploring the Why, the What, and the How of UDL. Through the course lessons and activities, participants will learn how to develop clear goals, recognize obstacles in the learning environment, and utilize the UDL guidelines to meet individual needs in pursuit of expert learning.

Participants will complete all course requirements via the online platform, Schoology.

Objectives

- List the features of learner variability and recognize variability as the norm
- Analyze the myth of average
- Define learner agency and identify its characteristics
- Examine UDL as a compliment to other educational frameworks and processes including Multi-Tiered Systems of Support and Positive Behavior Interventions and Supports
- Identify the three UDL principles and their relationships to learning
- Analyze the similarities and differences between UDL & differentiated instruction

Presenter

PaTTAN Educational Consultants

Target Audience

General Education Teachers, Special Education Teachers, Intermediate Unit Training and Consultation Staff, and others interested in this topic.
