FSA Procedure for LEA:

Each LEA will establish a team to review and complete the required FSA.

Procedure for completion of the FSA:

1. Review the required standard and regulatory basis for each topic.
2. Follow the procedure titled LEA Procedure for each topic, gathering the required data.
3. Conduct the team discussion review using the LEA Team Discussion Points provided.
4. Complete the written Data Collection Summary in the format provided.
5. Where specified in the FSA, please forward policies, procedures, and reports to Jill Deitrich at the BSE address or have them available onsite for verification, as directed by the Chairperson.

8. Exclusions: Suspensions and Expulsions

Standard – Suspension and Expulsion

The LEA's rate of suspensions and expulsions of students with disabilities is comparable to the rate of other LEAs in the state.

The LEA adheres to procedural requirements in suspending students with disabilities.

Regulatory Base

Suspension and expulsion rates – 34 CFR 300.170(a)(1)(2)(b)

(a) General. The SEA must examine data, including data disaggregated by race and ethnicity, to determine if significant discrepancies are occurring in the rate of long-term suspensions and expulsions of children with disabilities—(1) Among LEAs in the State; or (2) Compared to the rates for nondisabled children within those agencies. (b) Review and revision of policies. If the discrepancies described in paragraph (a) of this section are occurring, the SEA must review and, if appropriate, revise (or require the affected State agency or LEA

to revise) its policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards, to ensure that these policies, procedures, and practices comply with the Act.

Disciplinary placements – Chapter 14.143

(a) Notwithstanding the requirements incorporated by reference in 34 CFR 300.530 (b) and 300.536 (relating to authority of school personnel; and change of placement because of disciplinary removals), a disciplinary exclusion of a student with a disability for more than 15 cumulative school days in a school year will be considered a pattern so as to be deemed a change in educational placement. (b) A removal from school is a change of placement for a student who is identified with mental retardation, except if the student's actions are consistent with 34 CFR 300.530(g)(1)-(3) (relating to authority of school personnel).

LEA Procedure

LEA will select at minimum 10% of the files of students with disabilities who have been suspended for more than 10 consecutive or 15 cumulative school days in the prior school year. LEA will review for compliance with the mandated procedural safeguards requirements. LEA will discuss LEA Team Discussion Points and complete the Data Collection Summary.

LEA will provide a list of all students with disabilities who were suspended (in and out of school) during the prior school year. This list is to include all removals. The information will include the student's name, birth date, primary disability, and each date the student was suspended. LEA will have available the files of all students on the list.

Special Considerations**BSE Procedure**

Divide the list into 2 groups as follows:

Group 1 = Students (other than a student with intellectual disability) who were suspended from school for more than 10 consecutive or 15 cumulative school days during the prior school year.

Group 2 = Students with intellectual disability (regardless of whether the intellectual disability is a primary or secondary exceptionality) who were suspended from school for any number of days during the prior school year.

For each group, the Chairperson will select and review approximately a 20% sample and conduct the following review:

- a. **Group 1 only:** Any disciplinary exclusion of a student with disabilities for more than 10 consecutive school days or more than 15 cumulative school days in a school year is considered a change in educational placement. Manifestation determination, and if a manifestation, either Functional Behavioral Assessment is completed and a positive behavior support plan developed, or if a behavioral intervention plan already has been developed, a review of the behavioral intervention plan and modification if necessary, and notice to the parents shall be afforded prior to exclusion.

- b. **Group 2 only:** Any disciplinary exclusion of a student with intellectual disability is considered a change in educational placement. Manifestation determination, and if a manifestation, either Functional Behavioral Assessment is completed and a positive behavior support plan developed, or if a behavioral intervention plan already has been developed, a review of the behavioral intervention plan and modification if necessary, and notice to the parents shall be afforded prior to exclusion.

 Yes No NA
- d. **For Group 2:** Was FAPE provided from day 1?

LEA Team Discussion Points

LEA Team Discussion Points have been developed to begin and sustain discussion among members of the team. These points should be reflected in the Data Collection Summary.

What evidence exists that:

- the LEA reviews the data for patterns and causes of suspensions and expulsions?
- the LEA has considered these data?
- these data are comparable to trends in the general student population?
- the LEA uses follow-up studies and LEA data to drive program changes?
- the LEA provides Functional Behavioral Assessment, manifestation determination, and FAPE to students whose removal constitutes a change of placement?
- the LEA reviews data if there are concerns specific to students identified with intellectual disability?
- Are there any instances of students with disabilities being sent home for disciplinary purposes are considered official suspension?

9. Facilities Used for Special Education

Standard – Facilities

The LEA will be in compliance with the facilities requirements.

Regulatory Base

Facilities – 22 Pa. Code 14.144

The comparability and availability of facilities for students with a disability shall be consistent with the approved intermediate unit or school district plan, which shall provide, by description of policies and procedures, the following:

- (1) Students with disabilities will be provided appropriate classroom space.
- (2) Moving of a class shall occur only when the result will be: (i) To bring the location for delivery of special education services and programs closer to the students' homes. (ii) To improve the

delivery of special education services and programs without reducing the degree to which the students with disabilities are educated with students without disabilities. (iii) To respond to an emergency which threatens the students' health or safety. (iv) To accommodate ongoing building renovations, provided that the movement of students with disabilities due to renovations will be proportional to the number of students without disabilities being moved. (v) That the location of classes shall be maintained within a school building for at least 3 school years.

- (3) Each special education class is: (i) Maintained as close as appropriate to the ebb and flow of usual school activities. (ii) Located where noise will not interfere with instruction. (iii) Located only in space that is designed for purposes of instruction. (iv) Readily accessible. (v) Composed of at least 28 square feet per student.

9 Standards to Be Met / Procedures to Follow

The team discussion points have been developed to guide discussion among members of the team as they review the data. These points are to encourage discussion on indicators that reflect effective programs. These points should be reflected in the data collection summary. Please provide a written response for each question.

- a. Are there specific disability categories that show a high number of students placed outside the general education classroom for more than 20% of the school day?
- b. If the answer to "a" is "yes," list the reasons why a high number of students in those categories are placed outside the general education classroom for more than 20% of the school day.
- c. Do trend data in LEA tables and Five Year Longitudinal Data show an increase or decrease in the number of students with an IEP served in general education classrooms for increased portions of the school day? If there is a decrease in the trends, please explain.
 Increase Decrease Remained relatively the same
- d. Do the data in the LEA Tables match the current Special Education Plan Program Profile?
 Yes No
- e. Does the current Special Education Plan Program Profile describe the services and programs available to ensure that the continuum of services is available within the LEA?
 Yes No

Review LEA Tables 2 and 3 and State Tables 2 and 3 for first grade students, respond to the following questions and provide explanation.

LEA Team Discussion Points (continued from page 43)

Respond to the following questions and provide a brief explanation.

- For students educated outside the general education classroom for more than 20% of the school day, did IEP teams determine that those students could not receive a meaningful benefit from education in the general education classroom?
- If so, what were the reasons?
- What supplementary aids and services in the general education classroom did the team discuss prior to recommending removal from regular class for any portion of the school day?
- In what types of settings and environments are the following types of support provided: learning support, life skills support, emotional support, autistic support, physical support, multiple disability support, hearing support, vision support, speech and language support?
- For each of the above, is that type of support provided in general education classes as well as in special education classes?
- If it is not provided in general education classes, what are the reasons?
- How are students whose behavior may disrupt their own learning or that of others supported by the LEA?
- What plans does the LEA have to develop programs and services to ensure that the continuum of services is available within the LEA?
- Do students with an IEP have the same opportunities to participate in academic, nonacademic or extracurricular activities as peers who are nondisabled?
- If a student needs supplementary aids and services to participate in extracurricular activities, is that support provided?
- Do IEP teams begin the discussion of educational placement with the option of the general education classroom for the entire school day?
- During IEP team meetings in which a student's educational placement is determined, does the team discuss how the student can be educated in the general education classroom with supplementary aids and services for the entire school day?
- Are additional resources or supports needed to facilitate providing supplementary aids and services to students with an IEP within general education classrooms? If so, explain.
- How often are special education teachers available for co-teaching and consultation in general education classrooms?
- Do students with an IEP tend to spend less time in general education classes as they grow older?
- If so, is this true for students with all disabilities or only for certain disability categories?

(a) In addition to the requirements incorporated by reference in 34 CFR 300.106 (relating to extended school year services), school entities shall use the following standards for determining whether a student with disabilities requires ESY as part of the student's program: (1) At each IEP meeting for a student with disabilities, the school entity shall determine whether the student is eligible for ESY services and, if so, make subsequent determinations about the services to be provided.

12	Standards to Be Met / Procedures to Follow
	<p>LEA Procedure</p> <p>LEA will prepare a list of all students currently determined to be eligible for ESY services. The list is to include the student's name, disability category of eligibility, and type and location of special education service the student receives. (Use PennData definitions for category, type, and location.)</p> <p>LEA will send the list to BSE or make it available onsite for verification as directed by the Chairperson.</p> <p>LEA will review its data regarding ESY provision by disability, location of intervention, number of program hours, related services provided, and date of determination.</p> <p>Special Considerations</p> <p>BSE Procedure</p> <p>Chairperson will examine the list of students receiving ESY services to determine if students with various disabilities and types of services are receiving ESY programs. Chairperson will also consider the findings of other team members from the file reviews.</p> <p>Chairperson will select and review files of students found to be eligible and ineligible for ESY and reach conclusions. The sample will consist of at least 10 files in each eligibility category if available.</p> <p>Chairperson will answer the following questions:</p> <ol style="list-style-type: none"> a. Is expedited review being offered to families of students who are not "target" group members if there is a disagreement about eligibility or the content of the program? b. Is the LEA complying with timelines for the new deadlines for "target" group students? c. Are procedural safeguard options provided to parents who disagree with ESY eligibility determinations? d. Is there evidence that ESY programs are individualized with regard to amount of services and individually appropriate goals and related services? e. In cases where ESY eligibility is denied, is there evidence in the file to support that conclusion, including information and data that demonstrates that the student does not require ESY in accordance with the determination criteria included in state regulations?

Educational Benefit Review Worksheet

Instructions: LEAs participating in cyclical monitoring are required to use this worksheet to address the Educational Benefit Review (EBR) in FSA #23. The LEA is to form a team, and complete one worksheet for each student on the EBR/FSA #23 list provided to the LEA by the BSE. The LEA is to have the completed worksheet for each student, as well as each student's educational record, available for review by the BSE team chairperson during the onsite review.

The overall purpose of the EBR process is to determine whether the IEP was reasonably calculated to provide for educational benefit. Specific instructions about how to complete the EBR were provided by the BSE during the monitoring training.
