Purchasing Roger

Schools may choose to acquire Phonak Roger either by purchasing directly from Phonak or from a local Phonak dispenser. The equipment purchased is for school use only, resale to consumers is not intended.

Purchasing directly from Phonak is recommended for schools with audiology services on site who are trained by Phonak to provide the teacher in-service and troubleshooting support.

Purchasing from a local Phonak professional insures that full audiological management services are available when needed. Phonak trained dispensers have the equipment and knowledge to provide this support. Referrals can be provided on request.

Service for RogerDirect Hearing Instruments, Roger X and Roger iN microphones

If you send in a Roger X Receiver or a Roger iN microphone for service please ensure the Roger Receiver is present in the Roger X or Roger iN microphone and not installed in a Sonova Hearing Instrument. We ask that all Roger Receivers (02 or 03) installed on a Hearing Instrument (property of student or the school) must be uninstalled from the Hearing Instrument back into the Roger Receiver (02) or Roger iN Microphone (03) prior to sending in for service.

In case of a broken Hearing Instrument please add a note to the device if a Roger Receiver (02) or (03) was installed before the device broke.

The Roger Receiver installation status on a Hearing Instrument is visible with the myPhonak App available for iOS or Android.

However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.
