

# Classroom Management Resources and Tools for Educators

November 3, 2017

1:00 PM- 2:15 PM

PaTTAN is pleased to announce an informative webinar featuring classroom management resources and tools that participants can readily access and use within their educational settings.

The webinar will feature the five evidence-based practices of effective classroom management identified by Simonsen et al. (2008) that commonly serve as a cornerstone of preventative classroom behavioral management strategies that maximizes appropriate student conduct and sets the stage for instructional success.

1. Structure and predictability
2. Post, teach, and reinforce a small number of classroom rules
3. Actively engage students in observable ways
4. Using a continuum of responses to acknowledge appropriate behavior
5. Developing a continuum of responses to respond to inappropriate behavior

During this webinar, our participants will:

- Consider how the five evidence-based classroom strategies may be incorporated into their locally-based instructional routines
- Examine existing electronic classroom management tools and how to access it via the PaTTAN Website
- Highlight components of a Classroom Management PLC (Professional Learning Community) and how to conduct these meetings featuring evidence-based classroom management strategies

## Audience:

School District Personnel, Intermediate Unit TaC, and others interested in learning about Classroom Management Resources

## Registration:

Please register for this event by visiting our homepage at [www.pattan.net](http://www.pattan.net)
